

Universal Fuel Pump Conversion

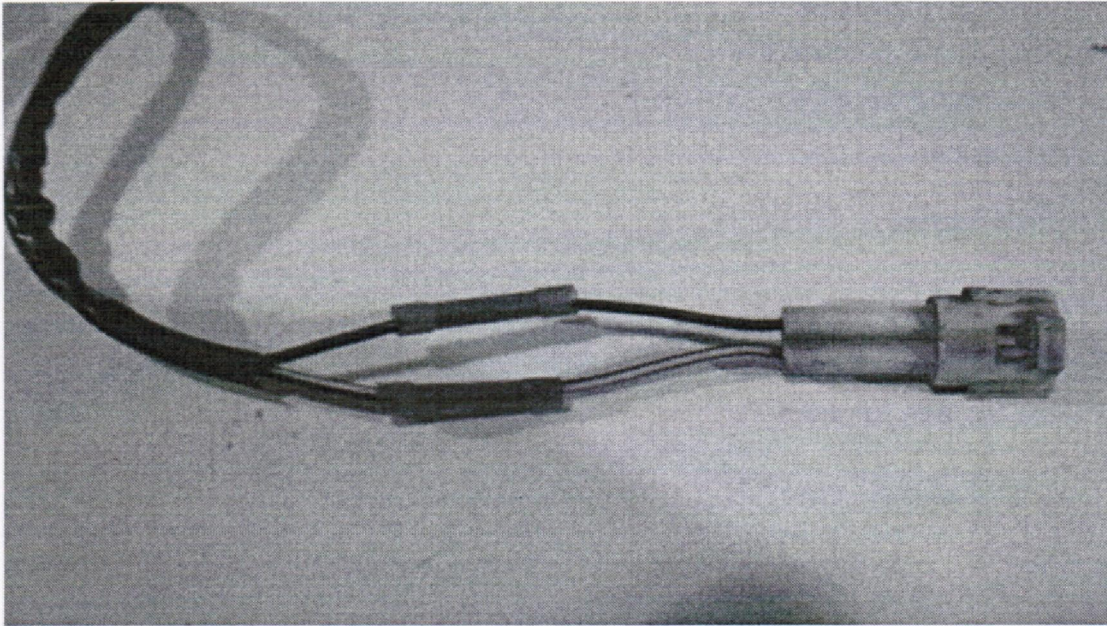

- You will have one of the following pumps (2-wire, 3-wire, KS4, U42T)

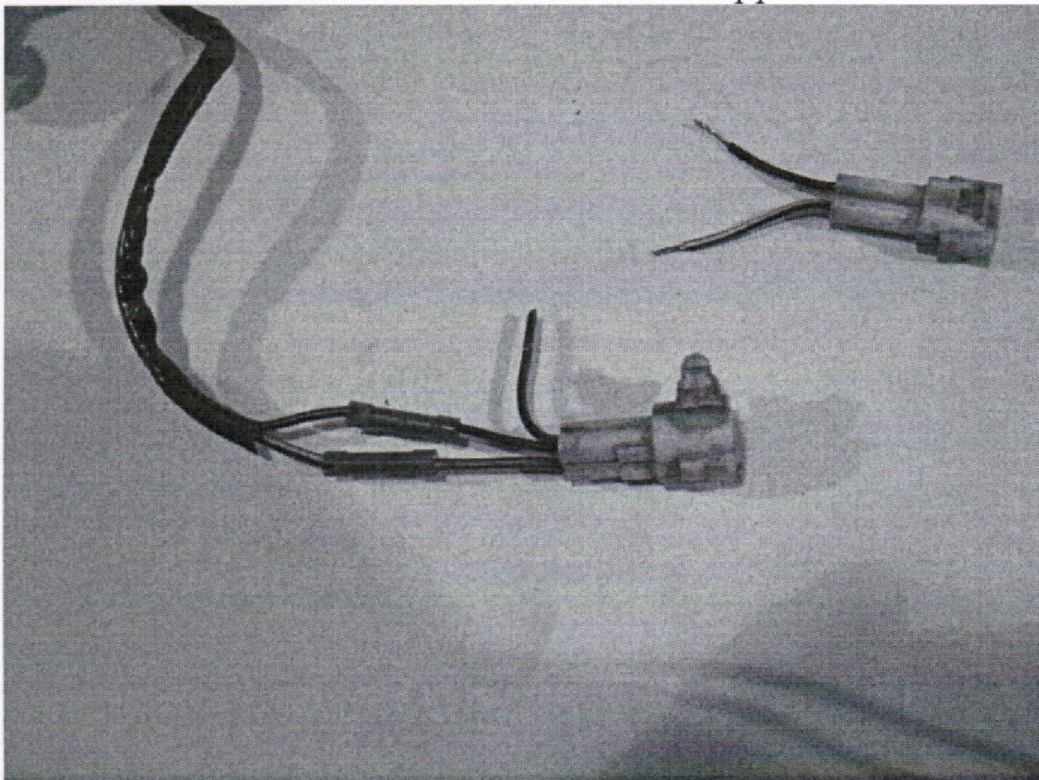

- Cut wires off your plug and new plug

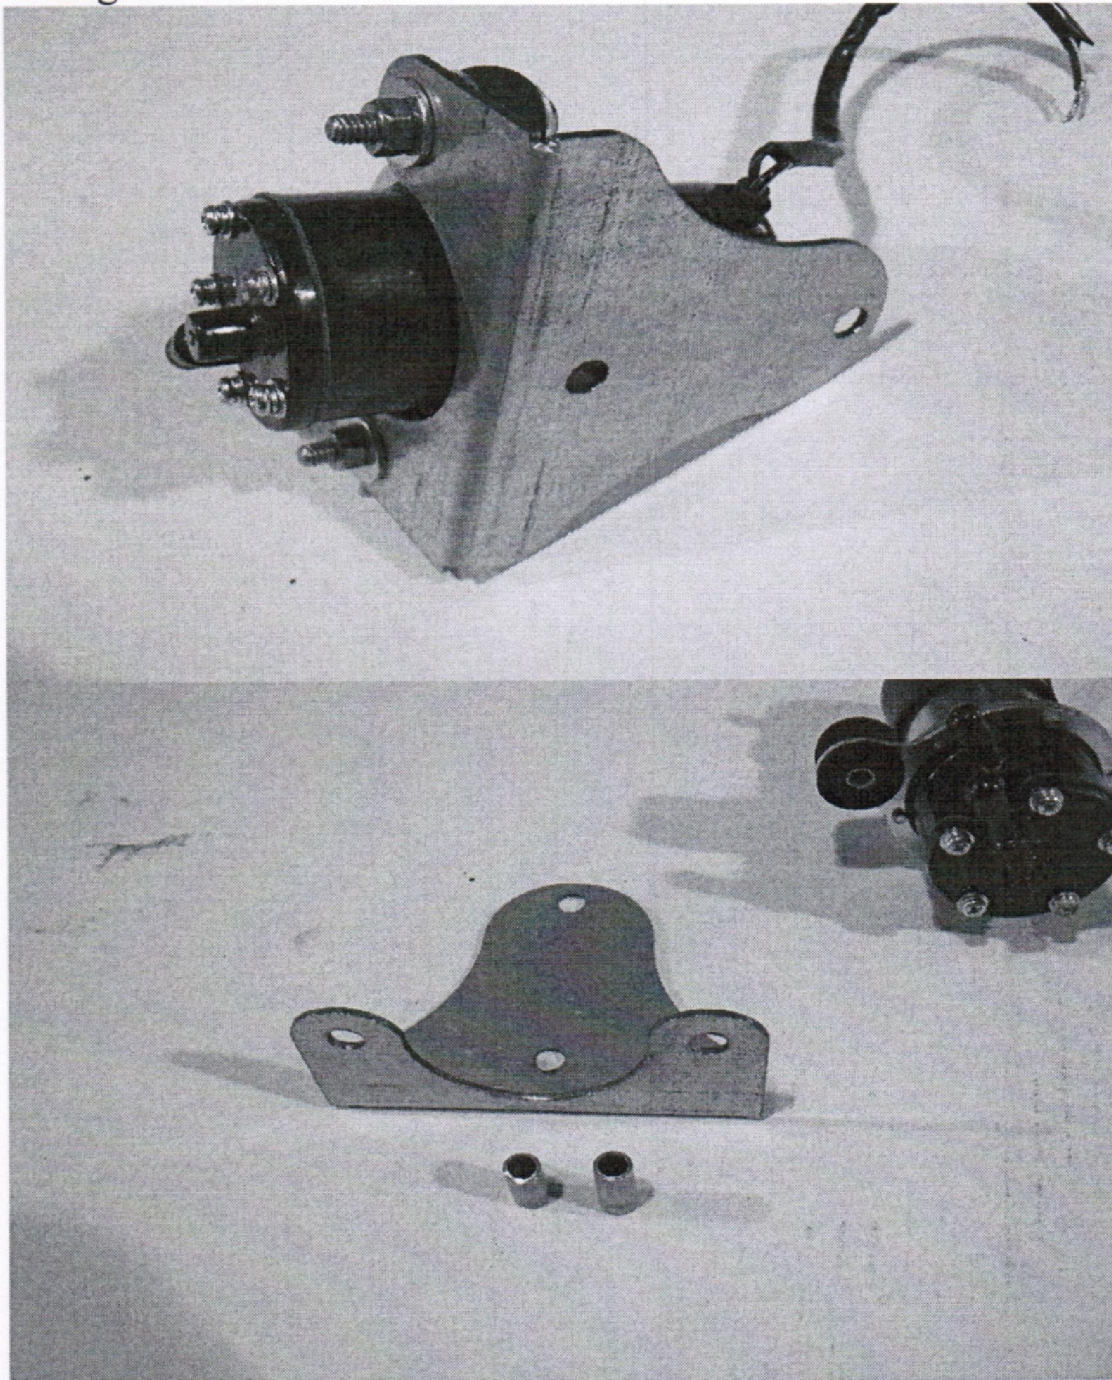

- Match black to black and black/white or red to black/white or red when wiring your plug to the new pump. Heat shrink wire connectors provided (just use a lighter to shrink)

- **For 3-wire pumps only match black to black and black/white to black/white. The 3rd wire can be cut and capped

- **For U42T, KS4 pumps. Mount included bracket to pump and place into factory setting. For KS4 use provided tubes for studs on factory setting.
